"I am extremely proud of the results our colleagues delivered in 2022. This year has easily been the most successful in financial terms in Greif's history, highlighted by our free cash flow generation of over \$500 million, which serves as evidence of our powerful value creation engine through execution of the Build to Last strategy. We believe these outstanding results are driven by the high engagement among our teams, our focus on delivering legendary customer service, and our consistent commitment to a value over volume approach," commented Ole Rosgaard, President and Chief Executive Officer of Greif. "I am also inspired by our team's commitment to advancing our Build to Last strategy, and we made substantial progress on our missions this year. The expected acquisition of Lee Container will help further drive margin-accretive growth. I am excited about this new opportunity and look forward to the year ahead with our new Lee colleagues, following closing in December."

#### **Build to Last Mission Progress**

Customer satisfaction surveys are a key component of our mission to deliver Legendary Customer Service. Our long-term objective is a trailing twelve-month CSI<sup>(6)</sup> score of 95.0 or greater. In addition, during the quarter we completed our twelfth NPS<sup>(7)</sup> survey and achieved a score of 65.0, representing a five point improvement from our prior year survey. This result during a period of substantial economic volatility demonstrates the value of Greif's customer service culture to sustain strong business relationships through the business cycle. The Company is proud of this result, and will continue to drive high quality customer engagement that advances our mission to Legendary Customer Service.

#### Segment Results (all results compared to the fourth quarter of 2021 unless otherwise noted)

Net sales are impacted mainly by the volume of primary products<sup>(8)</sup> sold, selling prices, product mix and the impact of changes in foreign currencies against the U.S. dollar. The table below shows the percentage impact of each of these items on net sales for our primary products for the fourth quarter of 2022 as compared to the prior year quarter for the business segments with manufacturing operations.

	Global Industrial Paper Packagin Packaging Services			
Net Sales Impact - Primary Products				
	%	%		
Currency Translation	(6.0) %	(0.1) %		
Volume	(5.6) %	(10.4) %		
Selling Prices and Product Mix	6.1 %	19.0 %		

#### **Global Industrial Packaging**

Net sales decreased by \$126.7 million to \$824.9 million primarily due to approximately \$84.0 million of prior year net sales attributable to the Flexibles Products & Services business that was sold on April 1, 2022, negative foreign currency translation impacts of \$84.1 million and lower volumes, offset by higher average selling prices.

Gross profit decreased by \$31.8 million to \$152.5 million. The decrease in gross profit was primarily due to the same factors that impacted net sales, partially offset by lower raw material, labor, and transportation costs.

Operating profit decreased by \$30.3 million to \$67.5 million primarily due to the same factors that impacted gross profit. Adjusted EBITDA decreased by \$25.4 million to \$96.0 million primarily due to the same factors that impacted operating profit.

#### Paper Packaging & Services

Net sales increased by \$43.9 million to \$665.6 million primarily due to higher published containerboard and boxboard prices, partially offset by lower volumes.

Gross profit increased by \$45.8 million to \$155.6 million. The increase in gross profit was primarily due to the same factors that impacted net sales and lower raw material costs, partially offset by higher labor and manufacturing costs.

Operating profit increased by \$41.5 million to \$83.4 million primarily due to the same factors that impacted gross profit. Adjusted EBITDA increased by \$33.1 million to \$120.8 million primarily due to the same factors that impacted operating profit.

#### **Tax Summary**

During the fourth quarter, we recorded an income tax rate of 23.9 percent and a tax rate excluding the impact of adjustments of 25.9 percent. As previously disclosed, the application of FIN 18 often causes fluctuations in our quarterly effective tax rates. For the full year, we recorded an income tax rate of 26.1 percent and a tax rate excluding the impact of adjustments of 23.9 percent.

#### **Dividend Summary**

On December 6, 2022, the Board of Directors declared quarterly cash dividends of \$0.50 per share of Class A Common Stock and \$0.74 per share of Class B Common Stock. Dividends are payable on January 1, 2023, to stockholders of record at the close of business on December 16, 2022.

#### **Company Outlook**

(in millions, except per share amounts)	Fiscal 2023 Outlook
Adjusted EBITDA	\$820 - \$906
Adjusted free cash flow	\$410 - \$460

Note: The range of fiscal 2023 net income guidance, the most directly comparable GAAP financial measure to Adjusted EBITDA is not provided in this release due to the potential for one or more of the following, the timing and magnitude of which we are unable to reliably forecast: gains or losses on the disposal of businesses or properties, plants and equipment, net; non-cash asset impairment charges due to unanticipated changes in the business; restructuring-related activities; non-cash pension settlement (income) charges; and acquisition and integration related costs. No reconciliation of the range of fiscal 2023 Adjusted EBITDA guidance, a non-GAAP financial measure which excludes restructuring charges, acquisition and integration related costs, non-cash asset impairment charges, non-cash pension settlement charges, and (gain) loss on the disposal of properties, plants, equipment and businesses, net, is included in this release because, due to the high variability and difficulty in making accurate forecasts and projections of some of the excluded information, together with some of the excluded information not being ascertainable or accessible, we are unable to quantify certain amounts that would be required to be included in net income, the most directly comparable GAAP financial measure, without unreasonable efforts. A reconciliation of the range of fiscal 2023 adjusted free cash flow guidance to the range of fiscal 2023 forecasted net cash provided by operating activities, the most directly comparable GAAP financial measure, is included in this release.

<sup>(9)</sup> EBITDA is defined as net income, plus interest expense, net, plus income tax expense, plus depreciation, depletion and amortization. However, because the Company does not calculate net income by segment, this table calculates EBITDA by segment with reference to operating profit by segment, which, as demonstrated in the table of Consolidated EBITDA, is another method to achieve the same result. See the reconciliations in the table of Segment EBITDA.

However, because the Company does not calculate net income by segment, this table calculates adjusted EBITDA by segment with reference to operating profit by segment, which, as demonstrated in the table of consolidated adjusted EBITDA, is another method to achieve the same result.
