#### Segment Results (all results compared to the third quarter of 2021 unless otherwise noted)

Net sales are impacted mainly by the volume of primary products<sup>(7)</sup> sold, selling prices, product mix and the impact of changes in foreign currencies against the U.S. Dollar. The table below shows the percentage impact of each of these items on net sales for our primary products for the third quarter of 2022 as compared to the prior year quarter for the business segments with manufacturing operations.

| Net Sales Impact - Primary Products | Global Industrial<br>Packaging | Paper Packaging &<br>Services |
|-------------------------------------|--------------------------------|-------------------------------|
| <b>Currency Translation</b>         | (5.2)%                         | (0.1)%                        |
| Volume                              | (2.0)%                         | (3.9)%                        |
| Selling Prices and Product Mix      | 17.3 %                         | 24.9 %                        |
| Total Impact of Primary Products    | 10.1 %                         | 20.9 %                        |

#### **Global Industrial Packaging**

Net sales decreased by \$1.1 million to \$906.7 million primarily due to approximately \$82.0 million of prior year net sales attributable to the Flexibles Products & Services business that was sold on April 1, 2022, negative foreign currency translation impacts of \$69.7 million and lower volumes, offset by higher average selling prices.

Gross profit decreased by \$21.7 million to \$177.7 million. The decrease in gross profit was primarily due to the same factors that impacted net sales and higher raw material costs, partially offset by lower labor costs.

Operating profit decreased by \$14.8 million to \$107.2 million primarily due to the same factors that impacted gross profit, partially offset by lower SG&A expenses. Adjusted EBITDA decreased by \$29.1 million to \$117.1 million primarily due to the same factors that impacted operating profit.

#### Paper Packaging & Services

Net sales increased by \$131.4 million to \$710.2 million primarily due to higher published containerboard and boxboard prices, partially offset by lower volumes.

Gross profit increased by \$49.3 million to \$167.3 million. The increase in gross profit was primarily due to the same factors that impacted net sales, partially offset by higher raw material, transportation, labor and utility costs.

Operating profit increased by \$49.2 million to \$96.7 million primarily due to the same factors that impacted gross profit. Adjusted EBITDA increased by \$41.9 million to \$131.8 million primarily due to the same factors that impacted operating profit, partially offset by higher SG&A expenses.

#### **Tax Summary**

During the third quarter, we recorded an income tax rate of 21.6 percent and a tax rate excluding the impact of adjustments of 21.5 percent. Note that the application of FIN 18 frequently causes fluctuations in our quarterly effective tax rates. For fiscal 2022, we expect our tax rate to range between 27.0 and 31.0 percent and our tax rate excluding adjustments to range between 22.0 and 25.0 percent.

#### **Dividend Summary**

On August 30, 2022, the Board of Directors declared quarterly cash dividends of \$0.50 per share of Class A Common Stock and \$0.75 per share of Class B Common Stock. Dividends are payable on October 1, 2022, to stockholders of record at the close of business on September 16, 2022.

#### **Company Outlook**

| (in millions, except per share amounts)       | Fiscal 2022 Outlook<br>Reported at Q3 |
|---|---------------------------------------|
| Class A earnings per share before adjustments | \$7.90 - \$8.10                       |
| Adjusted free cash flow                       | \$415 - \$445                         |

Note: Fiscal 2022 Class A earnings per share guidance on a GAAP basis is not provided in this release due to the potential for one or more of the following, the timing and magnitude of which we are unable to reliably forecast: restructuring-related activities; integration related costs; non-cash pension settlement charges; non-cash asset impairment charges due to unanticipated changes in the business; gains or losses on the disposal of businesses or properties, plants and equipment, net and the income tax effects of these items and other income tax-related events. No reconciliation of the fiscal 2022 Class A earnings per share before adjustments guidance, a non-GAAP financial measure which excludes restructuring charges, integration costs, non-cash asset impairment charges, non-cash pension settlement charges, (gain) loss on the disposal of properties, plants, equipment and businesses, net, is included in this release because, due to the high variability and difficulty in making accurate forecasts and projections of some of the excluded information, together with some of the excluded information not being ascertainable or accessible, we are unable to quantify certain amounts that would be required to be included in the most directly comparable GAAP financial measure without unreasonable efforts. A reconciliation of 2022 adjusted free cash flow guidance to forecasted net cash provided by operating activities, the most directly comparable GAAP financial measure, is included in this release.

<sup>(8)</sup> EBITDA is defined as net income, plus interest expense, net, plus income tax expense, plus depreciation, depletion and amortization. However, because the Company does not calculate net income by segment, this table calculates EBITDA by segment with reference to operating profit by segment, which, as demonstrated in the table of Consolidated EBITDA, is another method to achieve the same result. See the reconciliations in the table of Segment EBITDA.

<sup>(9)</sup> Adjusted EBITDA is defined as net income, plus interest expense, net, plus debt extinguishment charges, plus income tax expense, plus depreciation, depletion and amortization expense, plus restructuring charges, plus integration related costs, plus non-cash asset impairment charges, plus non-cash pension settlement charges, plus incremental COVID-19 costs, net, plus gain on disposal of properties, plants, equipment and businesses, net, plus timberland gains, net.
